## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### Risk Indicator

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you might get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 3 out of 7 which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the Fund to pay you. This classification is not guaranteed and may change over time and may not be a reliable indication of the future risk profile of the Fund.

**Be aware of currency risk. The currency of this share class may be different from that of your country. As you may receive payments in the currency of this share class and not that of your country, the final return will depend on the exchange rate between these two currencies. This risk is not considered in the indicator shown above.**

For a detailed description of the risks incurred in holding this Fund please refer to the Prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

### Performance Scenarios

## WHAT HAPPENS IF EUROPEAN AND GLOBAL INVESTMENTS LTD. IS UNABLE TO PAY OUT?

The assets of the Fund are held in safekeeping by its depositary, RBC Investor & Treasury Services, Ireland (the "Depositary"). In the event of the insolvency of the Manager, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations).
